Frank's announces Extended Range series of tools.

(TOOL NEWS) *July 11, 2010*- Frank's Casing Crew & Rental Tools is pleased to announce completion of another industry first: the success of its Extended Range series of tools. The following tapered string was recently run, without the need to change the elevator or spider.

- **8,644', 13 5/8" x 88.20 ppf, Q-125 (bottom)**
- **4,781', 16" x 109 ppf, P110 (top)**

This data represents a 2 3/8" variance in diameter from top to bottom. The buoyed weight for the string was 1,229,860 lbs. The job was run utilizing the Frank's 1250 Ton Extended Range tools.

Because jobs of this nature are analyzed on a case-by-case basis, any inquiries regarding running tapered strings should be directed to Robbie Thibodeaux or Jeremy Angelle via email at SOG@frankscasing.com

About Frank's Casing Crew

Frank's Casing Crew & Rental Tools is a leading provider of equipment and personnel for installing, threading, welding, driving and distributing oilfield tubulars. Established in 1938 by Frank Mosing as a one-crew casing company operated by he and his wife out of their garage, the company now employs more than 1,000 people throughout the U.S. and remains family-owned.
